KeyKeeper Key Drops

If your business requires distribution or collection of keys, you will eventually have keys dropped off after hours. How are you planning on protecting them?

KeyKeeper key drop systems offer you unprecedented security in unsupervised key drops. Features like ¼" and 3/16" plate steel construction, gated security drops and other proprietary features mean that KeyKeeper is a cost effective and secure solution for your key drop requirements.

	Keys and Envelopes	Keys Only
Freestanding	XL Withstand	Withstand
In-Wall	XL In-Wall	Standard
Counter or Wall-Mount	XL Junior	Junior

For Keys and Envelopes

Freestanding Key Drops KeyKeeper XL Withstand

A freestanding, self contained system. Your service envelopes are held in the top cover. Use the top as a writing surface, pull the drawer open, drop your envelope and close the drawer. Collect deposited envelopes through the secure door in the stand. Easy to use, easy to install and can be relocated.

Make fleet management easier! Use KeyKeeper XL Withstand for locations where vehicles need to be deployed to or collected from. This lets you shuttle your vehicles in off hours when traffic is minimized, saving extensive labor costs.

In-Wall Key Drops KeyKeeper XL In-Wall

A secure deposit system that installs right through your wall. KeyKeeper XL holds service envelopes in a compartment in the drawer. Customers use the drawer as a writing surface, deposit their keys and envelope into the slot and close the drawer. Keys are securely held in a 3/16" plate steel vault inside your building.

Counter Mounted Key Drops KeyKeeper XL Junior

KeyKeeper XL Junior provides all of the security features of KeyKeeper XL Withstand in a counter mounted model. Ideal for businesses requiring keys and contract drops or envelope drops. Used in airports, hotels, train stations and for rental companies in car dealerships. The XL Junior can also be wall-mounted with an optional bracket.

For Keys Only

Freestanding Key Drops KeyKeeper Withstand

A freestanding KeyKeeper. Enhanced security features make this model of KeyKeeper your ideal choice if you have a glass front building or other restrictions preventing you from installing a KeyKeeper through your wall. Tough anchor bolts provide 32,000 lbs resistance in a theft attempt. The depository door is 3/8" thick welded steel for extra security. Our unique design makes theft attempts virtually impossible!

In-Wall Key Drops KeyKeeper Standard

Our Standard, the first model we created for the auto rental industry. Great for keys only drops, the KeyKeeper installs easily through your wall, allowing your customers to drop keys and you retrieve them at your convenience from the vault inside your building. Thick plate steel construction and security features provide protection for you and better service for your customers.

Counter Mounted Key Drops KeyKeeper Junior

A counter mounted KeyKeeper, ideal for airport rental counters, hotel lobbies, train stations or any location where unsupervised key drops occur. The Junior can also be wall-mounted with an optional bracket.

Item #: E3030QPG
Minuteman® E30 Walk Behind Scrubber - 30", TD, Quick Pack

The E26 and E30 are disc models equipped with Aqua-stop. Squeegee with quick adjust system to quickly dry even the most challenging floors. Easy access to batteries and components. Simplified control panel. Brushes and water stop automatically when the machine comes to a stand still. Precise dosage of cleaning solution. Amount of cleaning solution released depends upon machine speed. Aqua-Stop is not available on pad drivers.

Two powerful brush motors guarantee an even cleaning result across the whole width of the machine.

-Squeegee width: 43"

-Working Speed: 2.3 mph

-Drive Motor: .70 HP

Additional Information:

Features

- Large tank opening in clean water tank saves time when filling using automatic filling systems. Run time and tank filling are in tune with each other.

- Low brush deck is ideal for cleaning underneath obstacles such as skids, warehouse racks and other stationary objects.

- The direct brush release system (BRS) allows brushes to be changed quickly.

- Easy, ergonomic operation as a result of the compact, maneuverable construction.

- Simple, easy-to-understand controls ensure that the machine is quickly mastered and maintenance is easy.

- Ergonomic, adjustable speed regulation.

- Ergonomic hand bails offer great control of the machine.

- Designed to give the operator more room for their feet while operating the machine.

- Battery running time to suit the application, on-board charger standard.

- Flow-optimized dirty water tank with AFS (Anti-Foam System) to protect the vacuum turbine.

As a result of the large tank lid, easy access for cleaning purposes.

- With the squeegee's Quick Adjust System, even challenging floors are left virtually dry.

- Service-friendly access to batteries and drive.

- ON-board charger is convenient and allows you to charge the machine anywhere.

- Designed to give the operator an excellent line of sight to the area that needs to be cleaned.

- Easily cleanable, hygienic recovery tank.

- When on-board charger is plugged in, the machine is not operable.

- The LCD will flash an error code when the machine has a service need.

- Markets: Hospitality, institutional, industrial, healthcare, building service contractor and airports.

Specifications

Theoretical Productivity: 30,000 ft²/hr.
