

## **Stanton Cowen**

Project Manager

### **RESPONSIBILITIES**

Stanton is responsible for all on-site management of any given construction project; these oversights include: subcontract procurement, project purchasing, subcontractor relations, material scheduling, architect liaising, budget monitoring and project-specific accounting. Stanton is also directly responsible for maintaining project-specific communications with the owner throughout the construction process. Stanton and the project superintendent are ultimately responsible for ensuring a safe, profitable, high-quality finished project.
